

GLOBAL THINKING, LOCAL ACTION

CITY OF
PERTH
City of Light

Sustainability Action

Working to achieve **Net Zero emissions**

In our business

Avoid, reduce and replace our greenhouse gas emissions

ACTIONS

Establish a carbon accounting baseline

Set targets for achieving net zero emissions

Purchasing green energy

Installing solar panels on City buildings

Investigating battery storage

Electrifying our vehicles

Using smart technology – street lights

Using our land for a hydrogen refuelling station

With our community

Inform, support, regulate to achieve reductions in greenhouse gas emissions

ACTIONS

Online sustainability education resources

Planning incentives for new sustainable design

Installing electric vehicle chargers

Undertaking urban greening

Encouraging cycling through planning and design

Encouraging walking through planning and design

Grants for residential energy assessments and upgrades

Providing electrification masterclasses
